EDUCATION

MIT World Peace University Pune, India
Bachelor of Technology in Computer Science & Engineering, **CGPA: 9.1/10** Aug 2024 – Jul 2028
Areas of Interest: Artificial Intelligence, Machine Learning, Software Engineering, Data Analytics, Full-Stack Development

WORK EXPERIENCE

1] Frontend Development Intern - CodeOrbit Tech Apr 2026 - Jun 2026

- Developed responsive web interfaces using HTML, CSS, JavaScript, and React.js, contributing to real-world development workflows.
- Collaborated on project tasks, debugging, UI improvements, and Git-based development.

2] Research Intern – Pharmacovigilance & ADR Reporting | MIT-WPU Under faculty guidance Aug 2025 - Oct 2025

- Researched pharmacovigilance and ADR workflows, translating case collection, assessment, and reporting requirements into software specifications.
- Explored AI-assisted data extraction, structured case management, REST APIs and database design for a digital ADR reporting and compliance platform.

ACADEMIC PROJECTS

1] SOMed-AI Pharmacovigilance & ADR Reporting Portal (Node.js, Express.js, MySQL, OpenRouter API) LINK

- Built an AI-powered ADR reporting platform with multi-tier workflows for patients, pharmacists and health authorities.
- Used OpenRouter LLMs for structured data extraction and voice-based reporting with automated routing.

2] EcoRevive – Sustainable Thrift E-commerce Platform (React.js, TypeScript, Node.js, MongoDB) LINK

- Built a full-stack thrift e-commerce platform featuring REST APIs, payment integration, a credit system and modular marketplace architecture.
- Implemented LCA-based environmental impact tracking with asynchronous processing, data aggregation, and real-time visualisation.

3] EV Charging Station Management System (React.js, Node.js, Express.js, MySQL, REST APIs, Maps API, AI) LINK

- Built a full-stack EV platform for station discovery, slot booking, payments and booking management.
- Integrated Maps API and AI-powered recommendations, along with an admin dashboard for managing users, stations, chargers and bookings.

AWARDS AND ACHIEVEMENTS:

- Earned a Full-Stack Certification from Coursera, demonstrating proficiency in MERN stack technologies.
- Secured runner-up position in Coder's Arena, an intra-college hackathon.
- Received an Award of Recognition for a successful two-year tenure at Funkaar.

LEADERSHIP EXPERIENCE:

- **Overall Coordinator, Industry–Academia Relations:** Coordinated the end-to-end event planning and execution, managed industry expert interactions, and oversaw event operations.
- Led a team of 200+ students in planning, and executing major academic and industry events, including CxO Meets and technical conferences.
- **President & Founding Member, Funkaar** — Founded and led a multidisciplinary creative community, fostering collaboration among artists across various domains.
- Organised projects, events, creative productions, and cultural exchanges.

TECHNICAL SKILLS:

- **Languages:** Python, C, C++, Java, JavaScript, SQL, TypeScript
- **Frameworks:** React.js, Node.js, Express.js, Tailwind CSS
- **Libraries:** NumPy, Pandas, Matplotlib, Scikit-learn, TensorFlow
- **Databases:** MySQL, MongoDB
- **Data & Analytics:** Power BI, EDA, Tableau, Excel, Machine Learning, Data Analysis
- **Development Tools:** Git, GitHub, VS Code, Jupyter Notebook, Postman, AWS, Azure, Gemini API, Ollama
- **Technologies & Concepts:** REST APIs, Responsive Web Design, SDLC, Database Management, Software Testing, LLM Integration, Prompt Engineering, RAG, Embeddings, Vector Search, RBAC, JWT Authentication
